Profile

Web Developer – Expert in building WordPress themes and plugins.

Experience

WEB DEVELOPER, HEILIND ELECTRONICS; SMITHFIELD, RI – 2025-2026

Developed PHP caching script to optimize MySQL database queries of several million products. Implemented responsive layout redesign with Sass/JavaScript utilizing AJAX to fetch JSON/HTML. Coded WordPress plugins and scripts to add site wide multilingual support. Migrated legacy ASP pages to PHP, and maintained intranet support tickets.

FULL-STACK WEB DEVELOPER, FREELANCE; REMOTE – 2020-2024

Build WordPress themes and plugins with PHP, JavaScript/jQuery, Sass, and manage Linux servers, Apache, and MySQL databases. Perform CMS migrations with AJAX filters, and implement SEO accessibility audits to increase site performance. Recently launched sites include: lnewenergy.com, lightwaverecruiting.com, inera.com, and prospermj.com

WEB DEVELOPER, CHAMP INTERNET; NEWTON, MA – 2018-2020

Developed WordPress themes, plugins, and responsive CSS3/Sass modules. Created custom theme for company website redesign. Setup Ubuntu Linux servers and automated deployment pipelines with GitHub Actions. Trained employees on version control and workflow best practices. Optimized sites for mobile devices, SEO, and accessibility standards.

WEB DEVELOPER, WORLDWAYS SOCIAL MARKETING; NEWPORT, RI – 2017-2018

Developed WordPress themes with PHP, JavaScript, jQuery, and Sass, and using Bootstrap/Foundation frameworks. Built a careers portal integrating data from a third-party JSON API. Led client training sessions on website usage and best practices. Improved SEO scores and search rankings with performance and accessibility testing.
